Plastic Bag Ordinance Task Force
City of Boston

Dear Plastic Bag Ordinance Task Force,

My name is Ian So, and I am writing on behalf of Chicken & Rice Guys as the CEO and owner. We operate multiple food trucks and restaurants in the City of Boston and I am writing in support of a plastic bag ordinance eliminating or limiting the usage of plastic bags. While the ordinance maybe an inconvenience for people with larger orders, the majority of bag users at our establishments are single order customers that really do not need a bag. Most of the customers really just use the bag for the 5 to 10 minute walk back to their offices but the plastic will pollute our environment for years! Additionally, there will be thousands of businesses realizing up to a 1% in reduction in costs per year that is seemingly small, but has a significant benefit for the retail industry which has notoriously slim profit margins.

Thank you for your time!

Ian So
CEO, Co-Owner & Founder
